

To Whom It May Concern:

Next Level Wellness is the gold standard of physical therapy. Doctor Gatsinaris and his staff were extremely knowledgeable and experienced in helping me with my back pain and recovery from knee and shoulder surgery. They actually spend "quality time" with patients to treat their physical issues of concern instead of just going through the motions. The individualized, one on one attention I received throughout my treatment yielded greater than expected results in mobility and strength to the affected areas. I knew I was literally in good hands with Dr. Gatsinaris, Caprice Leonard (Director of Sports Medicine and Rehab), and Jenny the massage therapist.

The facility is spacious, clean and well equipped with weights and exercise machines for patients to use. The receptionists are extremely helpful and friendly with scheduling or changing appointments. I was so satisfied with my experience at Next Level Fitness, I referred my family, friends and co-workers to them. I'm truly grateful for Dr. Gatsinaris and his staff for helping me get well.

Sincerely,

Patrick Kim
